"Über den Autor und weitere Mitwirkende Nikolay Elenkov has been working on enterprise security-related projects for the past 10 years. He became interested in Android shortly after the initial public release and has been developing applications for it since version 1.5. His work has led to the discovery and correction of significant Android security flaws. For two years, he's written about Android security at his highly regarded blog, <http://nelenkov.blogspot.com/>."

As a member of the android platform security team this book has been one of my top 2 remended to people new to android and top book overall for those interested in android security though i never finished it read only about half of the content and skimmed the rest this book
