"Werbetext Covers all classifications of fossils, with more than 190 fossils from around the world featured. This title is suitable for those interested in uncovering the many mysteries of the fossils. Über den Autor und weitere Mitwirkende Chris and Helen Pellant are based in North Yorkshire and they began writing books together in the 1980s. They have written a number of earth science books, and also run their own photographic library (www.picsandwords.com). They are keen conservationists, studying and recording everything from plants and lepidoptera to marine life."
