"Críticas 'This is certainly one of the most brilliant social histories I have
ever read.' Adam Nicolson, Country Life This book is a comprehensive and
stimulating coverage of a little understood subject. The only omission I could
find was midges.' - --John Martin Robinson, The Art Newspaper Mary Miers has
written an illuminating, nicely poised and rather beautiful tale of a unique

episode in British architectural history.' - --Fergus Fleming, Literary Reviewcarefully researched, beautifully photographed' - --James Fergusson, The Oldie Reseña del editor Featuring breathtaking photographs of some of Scotland s most remarkable and little-known houses, this book tells the story of how incomers adopted the North of Scotland as a recreational paradise and left an astonishing legacy of architecture and decoration inspired by the romanticized image of the Highlands. Known as shooting lodges because they were designed principally to accommodate the parties of guests that flocked north for the annual sporting season, these houses range from Picturesque cottages ornees and Scotch Baronial castles to Arts and Crafts mansions and modern eco-lodges. While their designs respond to some of Britain s wildest and most stirring landscapes, inside many were equipped with the latest domestic technology and boasted opulent decoration and furnishings from the smartest London and Parisian firms. A good number survive little altered in their original state, and some are still owned by descendants of the families that built them. Images from the famous Country Life Picture Library and specially commissioned photographs evoke the dramatic settings and arresting detail of these houses, making the book as appealing to decorators and architectural historians as it is to travelers and sportsmen.. NOTA: El libro no está en español, sino en inglés. Biografía del autor Mary Miers commutes between her home in the Scottish Highlands and the London offices of Country Life magazine, where she works as fine arts and books editor. Her books include American Houses: The Architecture of Fairfax and Sammons and The English Country House. The late Paul Barker was one of England s premier interior and architectural

photographers, whose books included English Country House Interiors, The Drawing Room, and English Ruins."
